Create storyboards to represent the user flow for a mobile app (e.g., food delivery app) using OpenBoard

AIM:

To map out the user flow for a mobile app (e.g., a food delivery app), storyboards will be designed using OpenBoard.

PROCEDURE:

Tool Link: https://openboard.ch/download.en.html

Step 1: Define the User Flow

1. **Identify Key Screens**:

   o List the main screens your app will have (e.g., Home, Menu, Cart, Checkout, Order Confirmation).

2. **Map the User Journey**:

   o Understand the typical user journey through these screens (e.g., browsing menu, adding items to cart, checking out).

Step 2: Create Storyboards Using OpenBoard

1. **Install OpenBoard**:

   o Download and install OpenBoard from the official website.

2. **Create a New Document**:

   o Open OpenBoard and create a new document.

3. **Add Frames for Each Screen**:

   o Use the drawing tools to create frames representing each key screen of your app.

4. **Sketch Each Screen**:

   o Use the pen or shape tools to draw basic elements for each screen. o Focus on major UI components like buttons, text fields, and icons.

5. **Organize the Flow**:

   o Arrange the frames in a sequence that represents the user journey. o Use arrows or lines to show navigation paths between screens.

Example Screens for Food Delivery App

1. **Home Screen**:

   o Search bar for finding restaurants o Categories for different cuisines

2. **Menu Screen**:

   o List of food items with images, names, and prices o Add to Cart buttons

3. **Cart Screen**:

   o Items added to the cart with quantity and total price o Checkout button

4. **Checkout Screen**: o Delivery address form o Payment options o Place Order button

5. **Order Confirmation Screen**: o Order summary o Estimated delivery time

   OUTPUT:

RESULT:

Creating storyboards to represent the user flow for a food delivery app using OpenBoard has been executed successfully.
